# RSA 432:32

## Defines “Agricultural Operation”

Means  
“farm”  
“farming”  
“agriculture”  
as defined in RSA 21:34-a

# RSA 21:34-a

1. Farm - land, buildings, or structures
2. Agriculture and Farming – mean the same thing
  - Quite broad – “all operations of a farm”
  - Not entirely clear on all points
3. Roadside Stand
4. Farmers Market & Agritourism
  - Different than agriculture or farming
  - Not clear how Right to Farm applies to Markets and Agritourism

# RSA 432:33

Immunity from nuisance lawsuit, if

1. conditions change in or around the farm
2. farm has been in operation for at least 1 year
3. farm was not a nuisance when it began

But, if farm “injurious to public health or safety” not immune from lawsuit

# RSA 147:1

Health officers of towns (with Selectboard or DHHS approval) may make local laws:

1. That “in their judgment the health and safety of the people require”
2. “Relative to the sanitary and health conditions for issuing a license to food serving establishments”

# RSA 432:33 with 147:1

If violate:

1. local laws about health and safety; or
2. local food service license

=

Not immune from lawsuit for nuisance

# RSA 432:34

Not immune from lawsuit for  
nuisance if negligent or improper  
operations

Not negligent or improper if  
“conform” to laws (federal, state,  
and local)

# RSA 432:35

Even though there's a Right to Farm,  
Departments of  
Environmental Services and  
Agriculture  
can (must) still enforce their laws

# RSA 431:34

Requires N.H. Dept. of Ag to publish  
**Best Management Practices**

for handling manure, agricultural  
compost, and commercial fertilizer

Most laws (and other restrictions)  
require following BMPs

# RSA 431:35

Requires N.H. Dept. of Ag. to  
investigate improper handling of  
manure, compost, or fertilizer

No Right to Farm protection if  
improper handling found

# RSA 674:32-a

Agricultural activity not explicitly permitted by zoning ordinance

**“shall be deemed to be permitted”**

(so long as comply with BMPs and laws)

# RSA 674:32-b

With 2 exceptions (next slides)

Agricultural uses “deemed permitted” “may without restriction” be

1. Expanded
2. Altered to meet changing technology or markets
3. Changed to another agricultural use

So long as comply with BMPs and laws

# RSA 674:32-b(a)

## Exception 1

1. New establishment
2. Re-establishment after disuse
3. Significant expansion of keeping of livestock, poultry, or other animal

Town may require special exception, building permit, or other approval

# RSA 674:32-b(b)

## Exception 2

1. New establishment
2. Re-establishment after disuse
3. Significant expansion of farm stand, retail operation, or other use involving on-site transactions with the public

# RSA 674:32-b(b) (cont'd)

Town may

1. require special exception, building permit, or other approval
2. Regulate to prevent traffic and parking from adversely impacting adjacent properties, streets, sidewalks, or public safety

# RSA 674:32-c

The clear part:

Tilling of soil and growing and harvesting of crops may not be prohibited in any zoning district

# RSA 674:32-c (cont'd)

The not-so-clear part:

For new, re-established, or expanded operations

Towns can generally apply local laws

# RSA 674:32-c (cont'd)

But not if “literal application would effectively prohibit an agricultural use” or “would otherwise be unreasonable in the context of an agricultural use”

Waivers shall be granted for such “effective prohibition” and “unreasonableness”

# RSA 674:32-c (cont'd)

But not if waiver “would have a demonstrated adverse effect on public health or safety, or the value of adjacent property”

Waiver continues only so long as used for permitted ag purpose

# Right to Farm Summary

1. Made of the different laws
2. Has significant limitations and ambiguity
3. Provides a lot of protection for lawful and well-managed farms

## Agritourism:

## Forster's Christmas Tree Farm v. Town of Henniker

## Take Home Message:

Agriculture does not include agritourism  
  
(Agritourism is not agriculture)

## Henniker:

“See New Hampshire Revised Statute  
Annotated Chapter 21:34-a Farm,  
Agriculture, Farming”

Hosting events is not agriculture  
because it is not a practice “incident to”  
the tree farm under 21:34-a, II(b)

# Even if agritourism, agritourism is not agriculture

# Hosting events not an accessory use

# Does the State preempt municipalities?

Probably not.

## *Forster:*

Whether the municipality's ordinance, which prohibited use of a tree farm for commercial events such as weddings, celebrations, and the like, was preempted by the state statute defining agritourism?

## Forster's assertion:

“statutory definition of ‘agritourism’ mandates that the Town “cannot ... prohibit otherwise valid agritourism enterprises that meet the statutory definition.”

# Court's rejection of Forster's Assertions:

- “RSA 21:34-a is a set of definitions, not a comprehensive statutory scheme aimed at superseding local regulation.”

- “RSA 21:34-a, VI merely defines “agritourism.”

- “RSA 21:34-a, VI contains no mandate to municipalities. It does not require that municipalities adopt the same definition. Nor does it mandate that municipalities allow activities that meet the statutory definition of ‘agritourism.’”

**“The other provisions in RSA 21:34-a likewise contain no mandate to municipalities.”**

RSAs

674:17, I(i)

672:1, III-b

672:1, III-d

674:32-a

674:17, I(i)

do not “require municipalities to allow  
‘agritourism’ within their borders”

## Take Home Message:

If a municipality defines agriculture differently than that state definition, whether more broadly or more narrowly, the municipality's definition will likely not be preempted by state law

## ***State Definition of Agriculture:*** RSA 21:34-a

- I.     “farm”
- II.    “agriculture” and “farming”
  - a. all operations of a farm
  - b. Any practice on the farm incident to, or in conjunction with such farming operations, including, but not necessarily restricted to
- III.   farm roadside
- IV.    Best Management Practices
- V.     “farmers’ market”
- VI.    “agritourism”

# Definition of Agriculture

Has limits

## Not unlimited

Forster - ejusdem generis  
(Latin for “of the same kind or class”)

“Hosting such events also is not included in subpart (b) as a practice incidental to farming operations. Although subpart (b) states that its list of practices is not all inclusive, under the principle of ejusdem generis, we construe the general words in that subpart (“any practice on the farm incident to, or in conjunction with such farming operations”) to embrace only practices similar to those included in the enumerated list. Hosting events such as the petitioner proposes is not similar in nature to the practices listed in subpart (b).”

## Take Home Message:

While the state definition of agriculture  
is broad, it does have limits
